ABOUT US

TeckWrap originally began as a vision and passion of Charles Heidenreich from Baltimore in the USA, and it started developing fast since then. Up until now, TeckWrap has built up a professional dealership network around the globe.

Our mission is to offer customers a wide variety of quality, affordable, and durable vinyl films worldwide. And we have warehouses in different spots, including the USA, Germany, Russia, and China, to make sure that our products can reach clients' hands within the minimum time.

Every single year, TeckWrap actively participates in various relevant fairs around the globe, including SEMA (based in the US) and FESPA, gathering international wrapping masters and wrapper groups. More than that, TeckWrap has spread its wings over different festivals and shows, including the ISA, Wrapscon, and Wrapping World, presenting unique and trending films.

Throughout those opportunities, TeckWrap continues meeting up with old and new clients by presenting, demonstrating wrap shows, explaining the process of film wrapping to customers. And some have been loyal enough to become one of our partners.

And this is one of the most valuable experiences for TeckWrap. Our mission is to work with distributors and customers, making peaceful and beneficial cooperation. Most of all, we grow together in this way. These experiences build up strong relationships with our partners. And helping each other friendly is what we especially value.

In comparison with other brands, TeckWrap might seem smaller. However, this is exactly why TeckWrap can always be flexible and efficient. We act as we think, and we seize every chance to reach out to every possibility to give our customers a unique and tremendous experience.

Bear our mission in mind; we are also devoted to keeping up with new trends so that customers can always find what they need with us. We offer vinyl films with an average three-year lifecycle and maintain a strategy of launching brand new designs every quarter as we believe color-change films are fashion products. The market tends to change quickly.

When TeckWrap first started, we had our first product line with the 180 series, where the colors of products are simple yet attractive. It is an ideal choice for partial application. Later on, we have our 190 series explicitly developed for full car wrapping, which has been growing and growing, as well as drawing interest from clients around the globe since it first launched the chrome and metallic products in 2015.

In the coming future, TeckWrap will continue developing its network, and in the meantime, focusing on expanding in printing media and paint protection film. Even more, we will be establishing more warehouses around the world so that we can always be available to our partners and closer to our customers.

TeckWrap is genuinely excited to offer you limitless possibilities to create fashionable, stylish exterior designs with different colors and finishes. Get in touch and feel the difference today.

TECKWRAP®

GLOSS ALUMINUM

180 SERIES

GLOSS ALUMINUM

Humble but elegant, Gloss Aluminum provides you a collection of 28 colors. Nothing pretentious, but with nothing less, its glory cannot be hidden. With this series, you will be able to create a perfectly stylish outfit for your loving car. Try this out and enjoy the upmarket.

BASIC SPECIFICATIONS

The thickness of the film: 0.15mm. The film is thick enough to ensure protection.
Width & Length: 1.52m*18m (59.8"* 708,6", 4.98ft*59ft, 1.66yd* 19,6yd)
Adhesive: solvent polyacrylate. TeckWrap high-tech adhesive is save for car paint and has low or moderate initial tack ensuring easy installation.
Storing period (shelf life): 2 years if stored in +10°C to +20°C, relative humidity 50%, in original package, away from direct sunlight, in a clean and dry place.
Indoor life: 4 years.
Outdoor life: 3 years when followed rules of application and usage. Mentioned periods are enough for a car wrapping film.
Post-heating: 100°C for flat surfaces and 120°C for curves and overlaps. We recommend a steam vacuum or IRR heater for installation.
Aftercare: PH neutral products. Avoid hot wax or solvents.

GLOSS ALUMINUM

TECKWRAP®

MATTE CHROME

180 SERIES

MATTE CHROME

Non-directional and non-textured, its features give you flexibility while applying. Not only that, it is usually very economical and pretty much stress-free compared to other films. Talking about the outcome, its flat sheen highlights every bodyline and contour of your car, which is something you might lose with a glossy finish. Make up your mind and make your car a head-turner!

BASIC SPECIFICATIONS

The thickness of the film (C=10 micron): 12C±0.5C
Type of film: Hybrid polymeric vinyl film (silver coating) with air release channels
Glue: Henkel solvent based adhesive
Storing period: 3 years if stored in +10°C to +20°C, relative humidity 50%, in original package, away from direct sunlight, clean and dry place
Indoor life: 5 years when followed rules of application and use
Outdoor life: 3 years when followed rules of application and use
Postheating: 90°C; cure time 48 hours

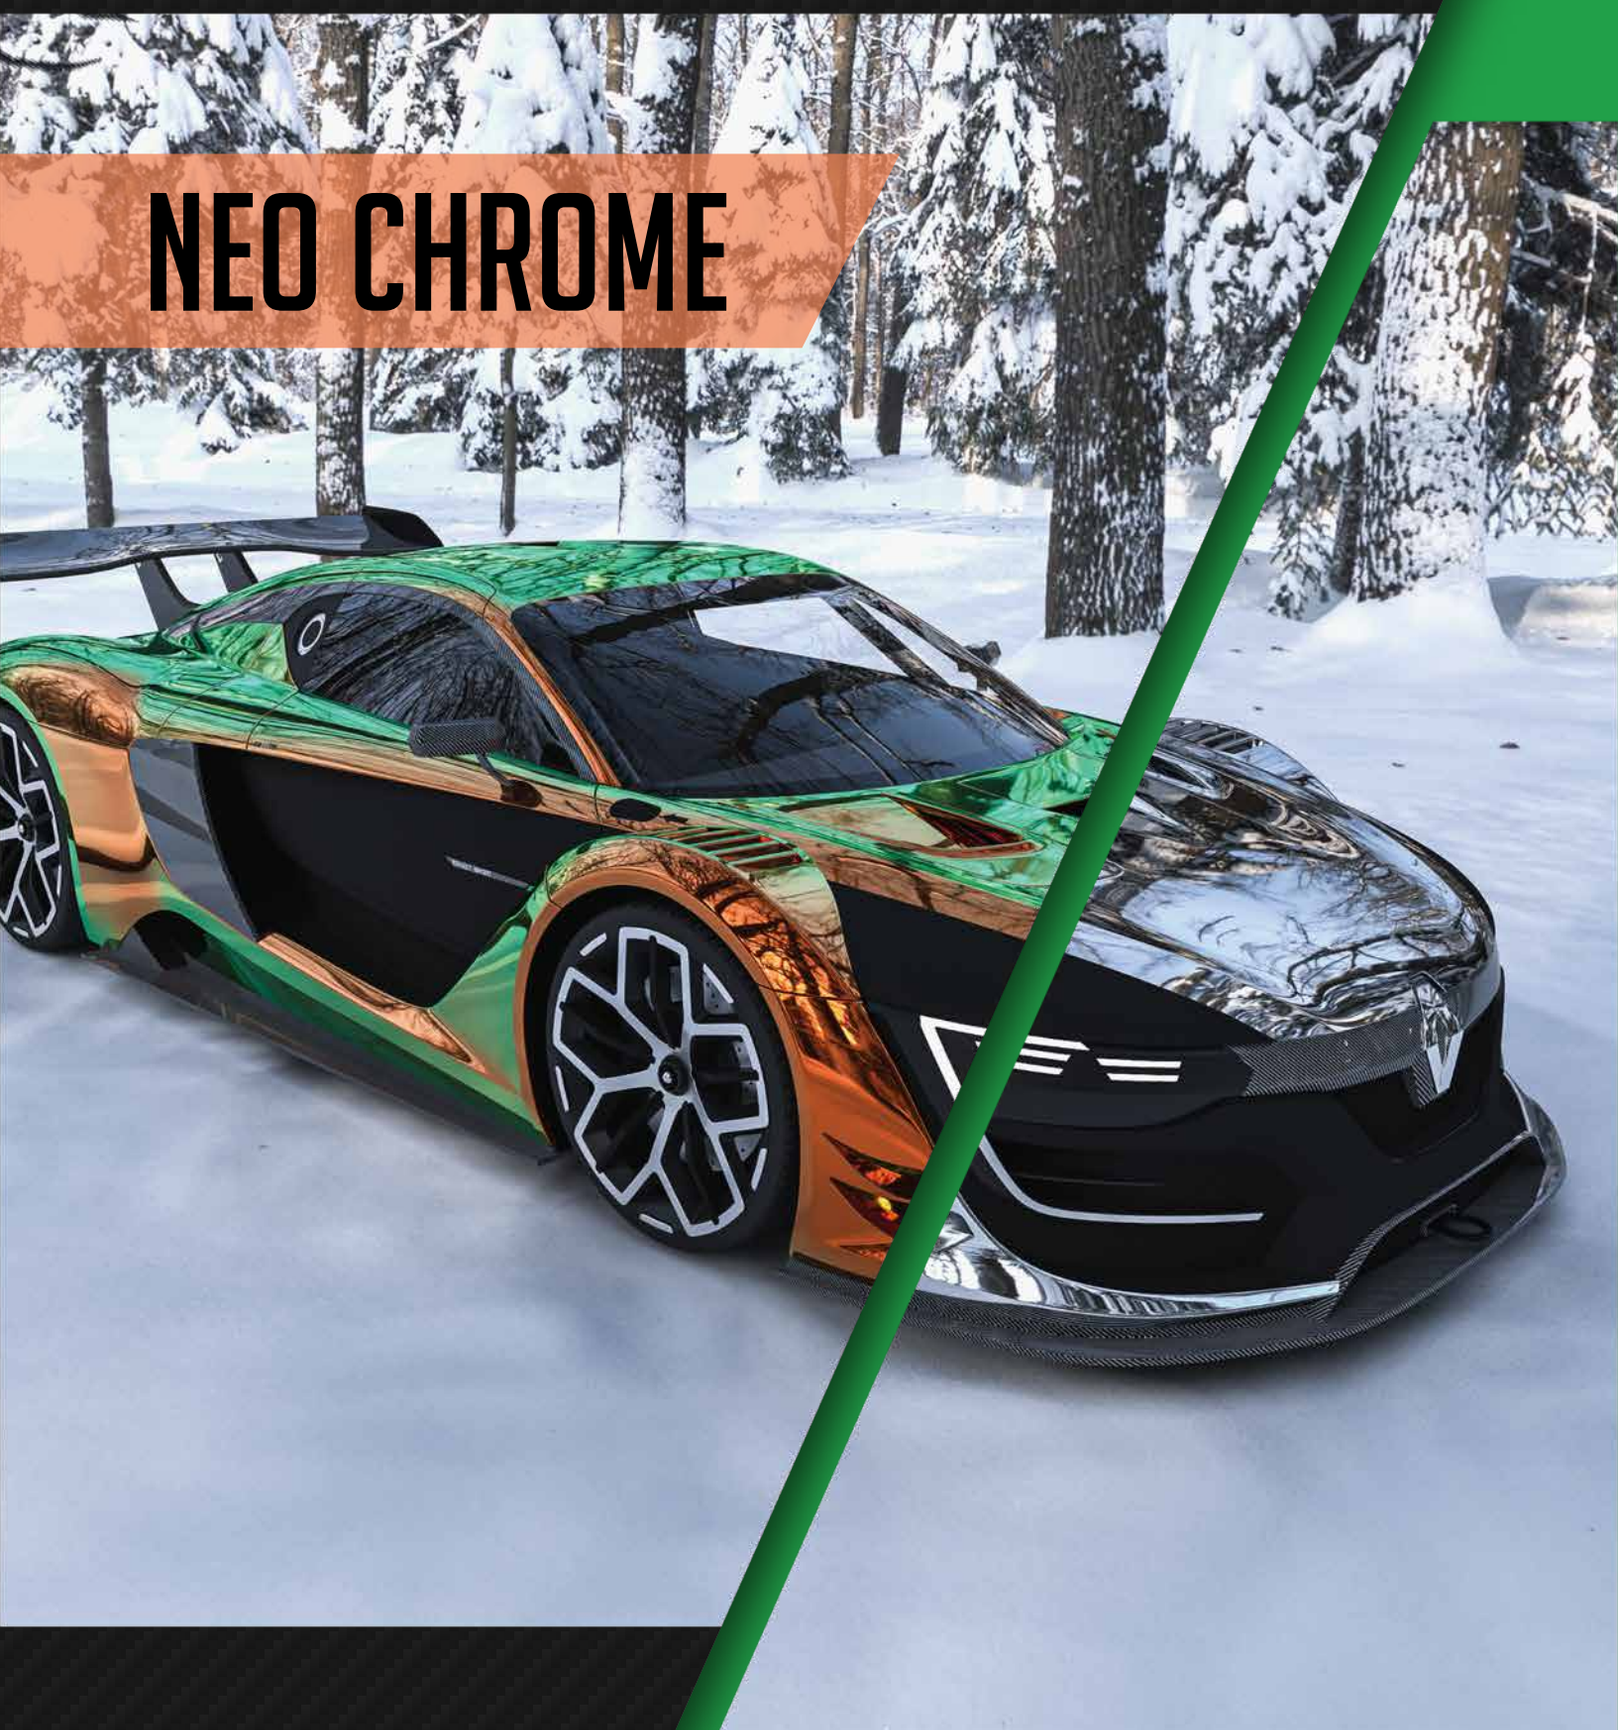
TECKWRAP®

NEO CHROME



180 SERIES

NEO CHROME

Mystic chrome represents its product name. It creates some mystic, like in a wonderland. With each of the five colors of neochrome, you will have different ideas about five fairylands. It is recommended for partial wrapping on your car. With another film which is relatively more solid on other surfaces, it makes a well balanced distinctive outfit.

BASIC SPECIFICATIONS

Thickness of film (C=10 micron): 16C±0.5C
Type of film: PET film with new air release channels
Glue: Henkel solvent based moderate adhesive
Storing period: 3 years if stored in +10°C to +20°C, relative humidity 50%, in original package, away from direct sunlight, clean and dry place
Indoor life: Up to 3 years when followed rules of application and use
Outdoor life: Up to 1-2 years when followed rules of application and use

PAINT PROTECTION

170 SERIES

PAINT PROTECTION

Designed for protecting your loving car, we have a collection of four and three styles (including gloss PVC, matte PVC, PVC with top-coating, and TPU) for you to choose from. Take your pick and boost up the long term durability of the appearance of your car, and enjoy your rides with no more worries!

BASIC SPECIFICATIONS

Shelf-life: 1 year from production date (save LOT number)
Application: on a wet surface
Warranty: 5 years from production date. The product is warranted to be free of defects in the material. In case of product defects communicated in mentioned period, TeckWrap will consider and determine the existence of the defect and further decide at its sole discretion, to either replace defective product without charge or compensate it with money in such amount, as TeckWrap deems reasonable.
Topcoating features: solvent and stain resistance, resistance to heavy metals, resistance to scratches, self-healing
